HEARTWAY

YES! You will look good on a Vita S12

All new, top of the range, luxurious 4-wheel scooter designed and manufactured to the highest standards. Packed with the latest technology and advanced features, the S12 Vita offers; innovative LCD digital display that keeps the user informed of the driving speed, time, temperature, distance travelled and battery range. The advanced ‘sporty’ suspension and automatic speed reduction when turning ensure a great ride. It also has a contoured, fully adjustable, ergonomic seat, a full lighting package including automatic braking lights and side reflectors that shine bright LED lights at night. The low profile, 13” tyres have alloy trims and the robust 4-pole motor provides plenty of power.

Superbly designed and finished, the S12 Vita represents the future of personal mobility. Capable of a top speed of 15km/hr and a range of up to 50km per battery charge.

Shoprider - 889SL 4-wheel scooter

The Shop rider 889 is simply the best all round scooter we have tested. It is our number one selling scooter. Why? It just performs exceptionally well in all the critical areas. Power, Range per Charge, Luxurious Comfort, Adjustable seat and tiller settings, Modesty panel, multiple lights for visibility and most importantly reliability. No other Brand of Mobility scooter we have tried can compare to the 889 for performance, value and comfort. While some scooters may be cheaper the 889SL is better value long term. We would strongly advise customers to test ride this scooter before making any decision on another brand or model.

Product code: SPR889SL

Shoprider Heavy Duty 3-wheel scooter

The largest of the three wheel scooters with the same look as the Rocky 6. This is a heavy duty capacity scooter with a maximum user weight of 180kg on flat ground. It comes standard with 13" flat free tires and full suspension..

MOBILITY

Romedic Patient Transfer Products

A comprehensive range of Romedic transfer product are available.

Move Master

MoveMaster is used for transferring patients who are sitting or lying or for turning them in bed. MoveMaster is particularly well suited for use against bare skin when transferring to shower chairs or to the toilet.

Product code: 2090

Flexi Move

FlexiMove are used for moving patients further up in bed or to and from a wheelchair. Product code: 3020

Easy Glide

EasyGlide is used for transfers between wheelchairs and beds, toilets, and car seats. EasyGlide is made of strong flexible polyethylene and is therefore easy to place in front of the wheelchair's wheels to protect against soiling. The smooth top side makes it easy to move and the double anti-slip tape on the underside prevents the board from sliding during transfer. The board is available in four sizes.

Product code: 5020

Turn Table

TurnTable is used to enable transfers to and from wheelchairs, beds, and toilets. TurnTable is made of durable polyethylene with a rubber-like anti-slip surface. Many people have enough strength to stand on their legs but not enough energy to move their feet. In these situations, TurnTable is an outstanding, easy-to-use device.

Product code: 5080

Easy Belt/ Flexi Belt

EasyBelt and FlexiBelt are used for sitting transfers or for supporting when standing and walking. EasyBelt is made of moisture- and soiling-resistant nylon while the FlexiBelt has a gentler, more comfortable polyester surface against the body. The belt, which is placed round the caretaker's waist or hip, has strong vertical and horizontal handles to provide the best possible grip in different situations. Available in different sizes.

Product code: 6013 Easy Belt Sm: 6014 med: 6015 lge

Product code: 6023 Flexible Belt Sm: 6024 med: 6025 lge

Patient Swivel Seat

Portable padded swivel seat on rigid base that rotates in both directions. Ideal to use when transferring in and out of vehicles

Product code: 250607

Transfer Board

This laminated high gloss finish transfer board is made from strong plywood. The chamfered ends facilitate secure positioning during transfers. a longer version is available designed to accommodate a wide variety of functional transfers. Hand holes are cut into both ends for easier grip. Length 760mm (30"). Width 210mm (81/2"). Weight 1.38kg.

Product code: 3910a and 3915a

Slide Sheets

Slide Sheets, tubular or flat, are an easy way of maneuvering a client across or up and down a bed , chair or other surface, simply slide rather than lift, Ergonomically efficient. All Slide Sheets are fully hemmed for durability and long life. All Slide Sheets are available in Red or Blue..Premium Slide Sheets are light weight with a base material of rip stop nylon, coated for slip and durability

Product code: RO108

General Transfer Boards

The General Transfer Board as its name suggests, is used as a general transfer aid in a variety of transfer situations, ie, from bed to chair, chair to chair, chair to bed, etc.

Product code: RO156

Angled Transfer Board

A smaller transfer board angled at one end to allow better positioning around the wheel of a wheelchair for side transfers.

Product code: RO158

Walking Transfer Belt

Exercise is an important part of the patient's therapy, whether it be part of a rehabilitation programme, or keeping the independent client mobile. The Walk Transfer Belt was designed by Tech-Assist Products to promote walking as therapy, whilst providing comfort and security. The Walk Transfer Belt is worn around the waist, the client is able to be stabilised and guided by the carer, using the hand holds on the belt

Karma S-ergo 115

Performance, Style and Comfort.
Karma's new Ergo 115 is equipped with the Unique S-Ergo (Smart Ergo) S shaped seat. The S-Ergo design was developed over two years, after extensive testing by Karma's Research and Development Department. The result is a leap forward in wheelchair design.
In Addition to the S-Ergo seating system the Ergo 115 also has seat upholstery and pads treated with Aegis Microbe shield, to reduce stains and odour.
The streamline oval tubes not only make the wheelchair look great, but also add to the strength of the wheelchair structure, which is incredibly light. Made from aircraft aluminium frame breaks down to just 8 Kg.

Features

- S-Ergo seat provides pressure relief and prevents slippage
- Outrigger arms minimize the overall width of the wheelchair
- Aegis Microbe Shield permanently bonded antimicrobial barrier upholstery protects from odour, staining and deterioration from bacteria, fungus and other micro organisms.
- Wide arm pads provide extra support
- Tube in centre footrest hanger provides support for the leg and allows user to relax thigh muscles.
- 8kg. Aircraft grade aluminium frame
- Detachable swing in/out footrest hangers.
- Available in 16", 18" or optional 20" seat width.

Product code: KM-S115

Karma S-ergo 305

The S-Ergo 305 also features our new patented footrests, which swing inward and outward for added convenience.

Features

- S-Ergo seat provides pressure relief and prevents slippage
- Aegis Microbe Shield permanently bonded antimicrobial barrier upholstery protects from odour, staining and deterioration from bacteria, fungus and other micro organisms.
- Easy 2 new style armrests: Easy to flip-back with adjustable height
- Patented footrest design swings inward and outward for added convenience
- Stylish side panel protects you from the rear wheels
- Modular design with aircraft-grade aluminium alloy reduces maintenance costs and total weight of the chair
- Height adjustable rear wheels

Product code: KM-S305
